

## REMARKS

In response to the Notice of Allowability dated October 22, 2009 indicating that the oath or declaration is defective and a new oath or declaration identifying this application by application number and filing date is required, submitted herewith is a new declaration signed by Applicant. It is believed that the newly executed declaration, correctly identifying the PCT application number and the U.S. patent application number, addresses the Examiner's concerns indicated on page 2 of the Notice of Allowability.

Further, in response to the Supplemental Notice of Allowability dated December 10, 2009 requiring corrected drawings and amendment to the specification, replacement drawings are submitted herewith to designate Figures 1 and 2 by "Prior Art." Moreover, the specification has been amended to indicate that Figures 1 and 2 depict "Prior Art." Accordingly, no new matter has been added. It is believed that the present submission addresses the above identified Examiner's concerns indicated on page 5 of the Supplemental Notice of Allowability.

If further changes are deemed necessary, the Examiner is requested to call the undersigned agent at the Los Angeles, California, telephone number (213) 623-2221.
